## LETTER OF TRANSMITTAL

September 30, 2016

The Honorable Pete Ricketts  
Governor of Nebraska  
State Capitol  
Lincoln, Nebraska 68509

Dear Governor Ricketts:

On behalf of the Board of Educational Lands and Funds, I am pleased to submit this 70th Biennial Report of its administration of Nebraska's School Trust Lands from July 1, 2014, through June 30, 2016.

This report reflects the broad scope of activity and the extensive responsibility of the Board and its staff in managing the nearly 1.258 million acres of K-12 Educational Trust Lands.

Total K-12 School Trust Income for the Biennium was \$102,511,381.78. All School Trust Funds are invested exclusively by the Nebraska Investment Council.

Respectfully submitted,

Kelly L. Sudbeck  
For The Board

## **THE BOARD OF EDUCATIONAL LANDS AND FUNDS**

In the Enabling Act of Congress passed April 19, 1864, pursuant to which Nebraska became a State on March 1, 1867, and as a condition of statehood, the federal government granted generally every section 16 and 36 in each township in Trust for the support of Nebraska's common (K-12 public) schools. The Trust nature, conditions and obligations of this grant are reflected in Article VII, Sections 6, 7, 8 and 9 of the Nebraska Constitution and have been recited in numerous decisions of the Nebraska Supreme Court including, for example, *State ex rel. Ebke v. Board of Educational Lands and Funds*, 154 Neb. 244 (1951).

Nearly 2.9 million acres were originally acquired in Trust for the support of Nebraska's K-12 public schools and about 1.64 million of these acres have been sold to private sector owners. Approximately 80% of the deeded acres were conveyed pursuant to cash sales, or contractual purchase rights vested in the buyers, prior to 1900, several decades before the Board of Educational Lands and Funds came into existence. As stated above, net income earned by the Trust and deposited in the Temporary School Trust Fund is paid out annually for the benefit of Nebraska's K-12 public schools statewide on a per pupil basis. The proceeds from all land sales are deposited into the Permanent School Trust Fund which is invested exclusively by the Nebraska Investment Council. The income from this Permanent Trust Fund earned by the Investment Council – like the income from the Temporary Trust Fund – is paid out exclusively for the benefit of K-12 public schools.

The Board of Educational Lands and Funds is now the Constitutionally established Trustee of Nebraska's School Trust Lands. The Board consists of five members, four from Nebraska's congressional districts as they existed on January 1, 1961, and one at large, appointed by the Governor and confirmed by the Legislature to rotating five year terms. Once appointed to the Board, its members are independent Trustees who manage the Board's activities and conduct its business operations in a totally non-partisan and non-political manner. The Board is governed entirely by trust law and its Trustee members are legally bound to fulfill the Trust duties of maximizing the income and preserving the assets of the School Trust for the exclusive benefit of the Trust's beneficiaries – K-12 public schools.

The Board meets monthly and its members receive a \$50 per diem and reimbursement for their necessary travel expenses for each day they are actually engaged in performing the duties of their office. The Board's Biennial Report is published during even numbered years and supplemented by its report published in the Nebraska Blue Book during odd numbered years and annual report to the Legislature.

The primary duty of the Board is to manage the approximately 1.258 million acres of land now held in Trust for Nebraska's K-12 public schools and in fulfilling this duty the Board serves as both land owner and land manager.

In its capacity as land owner, the Board expends funds for maintenance, conservation and improvement of the land under its care; a substantial portion of its budget each year is dedicated to these purposes. In its capacity as land manager, the Board issues and services both surface leases, primarily for agricultural uses, and subsurface leases permitting exploration for and extraction of oil and gas, minerals and other natural resources. The Board currently manages and collects rentals on approximately 3,250 leases. Sales and trades of School Trust Land are discretionary with the Board.

The primary sources of revenue generated from Nebraska's School Trust Lands are rentals and bonuses for agricultural lands and rental, bonuses and royalties for mineral leases. Analysis using valuation data of the University of Nebraska, Department of Agricultural Economics, established that Nebraska's K-12 School Trust Lands had a current market value of approximately \$1.498 billion dollars for 1.258 million acres as of June 30, 2016, and \$1.552 billion for 1.259 million acres as of June 30, 2015. It should be noted that these values are conservative valuations based solely on agricultural value; they do not include enhanced values for scenic or recreational lands owned by the School Land Trust which increase the value to \$1.549 billion as of June 30, 2016.

Gross revenue attributable to all School Trust Land sources was \$49,500,071.18 for fiscal year ending June 30, 2015, and was \$53,011,310.60 for fiscal year ending June 30, 2016. For additional deposits see page 8 of this report. Sources of new revenue are wind and rare minerals.

Effective January 1, 2001, certain leased public property became taxable to the leaseholder (lessee) as if it were owned by the lessee. The Board voluntarily pays these taxes and collects them from the lessees as part of the rent.

The Board and its staff are firmly committed to their fiduciary duty of maximizing the income and preserving the assets of the School Trust for the benefit of Nebraska and its citizens. In pursuit of these goals, every effort is made to manage and conduct the Board's business operations on the profit motive patterned as closely as possible on business operations conducted by the most efficient enterprises in the private sector. The Board and its staff believe this business-like approach will make possible the continued successful pursuit of the Trust objectives.

## OFFICE OF THE STATE SURVEYOR

The laws of 1903 required the Board of Educational Lands and Funds to appoint a State Surveyor and allowed the Board to appoint deputy surveyors as the need arose. These same statutes prescribed several duties to be performed by the State Surveyor. Many of these original duties are still required and direct the operations of the State Surveyor's Office. Among these duties prescribed by the laws of 1903 are:

- (1) Take charge under the supervision of the Board of the field notes, maps, charts and records of the United States surveys.

A library consisting of these notes and plats is maintained in the Surveyor's Office. This material is made available to the public and copies provided upon payment of appropriate fees.

- (2) Prepare and issue under the authority and direction of the Board, a circular of instruction to county surveyors.

Acting under this directive the office last provided a complete set of instructions in 1914. Since that time the office has issued instructions on specific items. The current directives issued to county surveyors are initiated based upon requests from individual county surveyors or registered land surveyors in private practice.

- (3) In case of any dispute among owners of and arising for or by reason of any survey of boundaries of lands within this state, or in case of dispute or disagreement between surveyors as to said surveys or boundaries, the same shall be referred to the State Surveyor for settlement. He is hereby appointed as arbitrator to settle and determine such disputes or disagreements as to said surveys and boundaries and his decision shall be prima facie evidence of the correctness thereof.

These disputes and requests for surveys have resulted in approximately 2,258 State application resurveys. In many cases the disputes can be resolved without resurvey by use of advice and opinion on surveying issued by the office.

- (4) Perform such other duties as may be prescribed by the Board.

The office reviews all transfers of educational trust land and gives opinions on the adequacy of the descriptions for trades, sales, and condemnations. Upon completion of the transfers the staff supervises changes in the abstract and provides the Board's field personnel with plats showing the revised property. Drafting, charts, graphs and court exhibits are also provided to the Board upon request.

- (5) The Board may, when in its judgment there is need, appoint one or more competent experienced deputy land surveyors.

The Legislature has added duties to this original list from time to time. Some of these additional duties have continued to the present time. Among these added duties are:

- (1) In 1961 the Legislature passed a resolution which resulted in a U.S. Supreme Court case on the boundary between Nebraska and Iowa. The case was decided in 1973 but problems on the boundary still persist as evidenced by further resolutions. The result of these actions has been the accumulation of a library of approximately 20,000 documents filed in the Office of the State Surveyor. The State Surveyor serves on the Nebraska Boundary Commission.
- (2) In 1982 the Legislature created the State Survey Record Repository in the Office of the State Surveyor. This Survey Record Repository receives and files land surveys required to be submitted by statute. All submitted documents are microfilmed and copies are available upon request with the payment of appropriate fees. As of this report, the Survey Record Repository contains approximately 319,000 documents archived on microfilm of which approximately 143,280 documents may be accessed online. All online documents are free of charge.
- (3) In 1991 the Legislature created the G.I.S. Steering Committee. The State Surveyor serves as a member of this Committee.
- (4) In 1998 the Legislature created the Nebraska Information Technology Commission. The State Surveyor's Office is to provide technical assistance, support and advice to the various counties, cities and other governmental bodies in Nebraska in their endeavors to produce and maintain cadastral or other geo-referenced maps.

These duties, combined with the general governmental responsibility to provide service and information to the public, provide the basis for the operation of the State Surveyor's Office under the direction of the Board of Educational Lands and Funds.

1. Includes all sources and times of acquisition. The original federal grant of Sections 16 and 36 and in lieu selections (Common School Trust Lands) was, for example, the equivalent of 2,797,520.67 acres.
2. Includes acres condemned and paid for pursuant to federal or state authority for roadways and other public uses.
3. Acres available for surface leasing will vary slightly from time to time due to such things as the meanderings and channel changes of rivers and streams. Additional acres are available for subsurface leasing, primarily as a result of subsurface rights retained when the surface was deeded or condemned.
4. See the Note on page 24.

## NOTE CONCERNING APPRAISED VALUATION

**Appraised valuation** also means **appraised rental valuation** and is merely surface (agricultural) rental capitalized at the rate of 4% (divided by .04). The sole purpose for this computation is to generate the numbers required by certain statutes which have not been amended for many years. These numbers are intended only to provide the statutorily desired information and do not reflect market value as of any specific date.

For purposes of this nature, **capitalization rate** is the same thing as **rent to value ratio**. To illustrate the process, if annual rent is \$46.550 million and a rate of 4% is chosen, the resulting value will be \$1.164 billion. Similarly, a rate of 5% applied to rental of \$46.550 million will yield a value of \$931.0 million, and a rate of 6% used for the same \$46.550 million rent will result in a value of \$775.8 million. The historically valid long-term capitalization rates for agricultural land are generally 4% to 6%. However, within this range, applying the lower rent to value ratios to actual rental will yield higher values, while applying the higher rent to value ratios to actual rental will yield lower values.

Accurate rent to value ratios can be determined through the process of dividing the rentals which exist at any point in time by the corresponding values to which they pertain. All of these numbers are driven by the private sector marketplace and, therefore, the actual rentals, values and rent to value ratios are always changing over time. It is simply not possible to incorporate these constantly changing rent to value ratios into statutes because, by the time the necessary computations could be made and the statutes could be amended, the actual rent to value ratios would have changed again. For statutory purposes, therefore, the best course is to choose one rent to value ratio within the historically valid range of 4% to 6% and use it consistently over a considerable period of time. This allows the numbers thus generated to be useful for some additional purposes, such as comparing relative values from one county to another and relative changes in values over the years, even though these numbers do not represent current market value.

## TOTAL K-12 SCHOOL TRUST LAND SALES FOR THE BIENNIUM

TOTAL PARCELS	TOTAL ACRES	GRASS ACRES	CROP ACRES	CRP ACRES	OTHER ACRES	BEGINNING BID PRICE	SALE PRICE	EXCESS OVER BEGINNING PRICE
3	72.760	26.590	24.170	0.000	22.000	\$139,125	\$139,125	\$ - (0%)

All parcels sold were K-12 School Trust Land. Proceeds are deposited into the Permanent School Fund during the Fiscal Year in which they are received. With respect to auctions occurring during the last three months of the Fiscal Year, only the down payment may be received prior to the close of the Fiscal Year. The balance of the purchase price is due within 90 days of the auction date and payments made after June 30th will be included in receipts for the next Fiscal Year. Deeds are issued only after the purchase price is paid in full and acres are not removed from inventory until that time.

## SECTION 72-258 REPORT OF DENIED LAND SALE REQUESTS

There was one land sale request denied by the Board to be reported pursuant to the last sentence of the second paragraph of Section 72-258.

During Fiscal Year 2014-15, the Board denied a request that part of the E½NW¼ lying South of Hwy. 20, in Section 36-T29N-R08E, Dakota County, except approximately 5.77 acres lying southwest of Crystal Lake, be offered at public auction for \$110,000. This is a recreational use parcel with approximately 17 acres of Crystal Lake, located 2 miles west of South Sioux City, NE with good access. The sale of the parcel at the price offered was not in the best interests of the School Trust.
