Attention: Mike Saunders
7131 A Street
Lincoln, NE 68510

Dear Mike:

The question has arisen as to what extent the general public is entitled to USDA information regarding land managed by the Board of Educational Lands and Funds (Owner ID #47-0721044). The following is the answer to that question.

All information which would be available to this Board, as land owner, must also be available to the general public. Therefore, all such information must be released to anyone who requests it. No exceptions are permissible.

The only information which can be withheld is that which would not be available to this Board in its capacity as the land owner. In such a case, the requesting party should be clearly advised that the information is being withheld solely because it would not be available to this Board.

If you have any questions or desire further information concerning this subject, please do not hesitate to contact me at your convenience. Otherwise, please distribute a copy of this letter to each Nebraska County FSA Office. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Ronald Vance".

Ronald Vance
Field Supervisor
